### PROJECTS

#### HOSPITAL WEBSITE

HMS was introduced to solve the complications coming from managing all the paper works of every patient associated with the various departments of hospitalization with confidentiality. HMS provides the ability to manage all the paperwork in one place, reducing the work of staff in arranging and Analyzing the paperwork of the patients.

#### E-COMMERCE WEBSITE

An e-commerce website facilitates online buying and selling by showcasing products with descriptions and prices, allowing users to add items to a virtual shopping cart, and securely completing transactions via payment gateways. It offers convenience and accessibility for both businesses and customers, enabling transactions anytime, anywhere, with robust security measures in place.
